

Prince George's County Fire Commission Meeting Notes
Virtual Work Session 508 Discussion
Thursday October 26th, 2023

In Attendance- Chairman Bolden, Vice-Chair Surles, Commissioner Bell, Commissioner Smalls, Commissioner Snyder (for minute purposes), and AFC White.

AFC White and Chair Bolden advised that the County has still not yet received the total amount of 508 funding from the State, of which County keeps 10% of the allocated amount. Because the State allocation is still unknown, it is not possible to make any final decisions this meeting and the Workgroup would need to hold another meeting once that information is provided. The discussion board went down line by line discussing different corporation's current projects, outstanding payments, and available funding. A future meeting would be set when the allocation figures are provided by the State.

Meeting was over at 3:12pm

Notes were recorded and typed by Commissioner Kyle Snyder, Secretary.
